REVOPS STAKEHOLDER PACK

C-Level Overview with Product, CRM, and Finance Drilldowns

This dashboard mirrors the stakeholder markdown flow: executive summary first, then function-specific drilldowns in the order Product, CRM, and Finance. Use it as the live presentation layer for leadership and departmental reviews.

REPORTING WINDOW

Jan 2023 to Mar 2025

Built from the local DuckDB warehouse after the latest successful dbt rebuild.

HOW TO USE

Start with the executive section, then choose the drilldown based on the stakeholder question.

Executive Overview | Product Drilldown | CRM Drilldown | Finance Drilldown

CHOOSE PRODUCT

Use when the stakeholder asks about funnel leakage, conversion movement, traffic quality, or campaign efficiency.

CHOOSE CRM

Use when the stakeholder asks about churn, retention, segment quality, or channel quality over time.

CHOOSE FINANCE

Use when the stakeholder asks about revenue, discounts, vendor concentration, returns, or commercial risk.

CEO | CRO | COO | CFO

Executive Overview

One screen for business health before choosing a function-specific drilldown.

NET REVENUE

EUR 25,036.92

Realized revenue after refunds

ORDERS

76

AOV EUR 329.43

CUSTOMERS

85

65 inactive for 90+ days

FUNNEL CONVERSION

16.26%

Page view to purchase

C-Level Insights

- Dec 2024 was the strongest revenue month at EUR 3,941.01.
- Referral is the strongest acquisition path with a 21.95% page-to-purchase rate.

- 76.47% of customers are inactive for more than 90 days, making retention the biggest cross-functional risk.
- Paid Search carries the largest campaign budget at EUR 30,670.00 but EUR 0.00 attributed revenue.

Executive Fields

Product Drilldown

For conversion performance, funnel friction, channel quality, and campaign efficiency.

BEST CHANNEL

Referral 21.95%

9 purchases from 41 page sessions

WEAKEST SCALED CHANNEL

Paid Search 6.67%

Lowest conversion among meaningful traffic sources

BEST DEVICE

Mobile 19.12%

Highest page-to-purchase rate by device

TOP JOURNEY

Referral Mobile

Converts at 36.36%

Product Insights

- Referral Mobile is the benchmark journey at 36.36% conversion.
- Paid Search is both expensive and weak, converting only 6.67% from page view to purchase.
- Organic Mobile loses 55.56% between page view and product view, pointing to a discovery or landing-page issue.
- Email Desktop is a strong high-intent path and a good reference experience for product optimization.

HEAD OF CRM | LIFECYCLE MARKETING | RETENTION MANAGER

CRM Drilldown

For inactivity risk, segment health, retention bands, and channel-level customer quality.

CHURNED

53

Customers in the churned retention band

ACTIVE

15

Customers still transacting recently

BEST VALUE CHANNEL

Referral EUR 454.20

69.57% inactivity rate

BEST VALUE SEGMENT

Premium EUR 333.39

1.48 orders on average

CRM Insights

- Referral delivers the highest customer value at EUR 454.20 average spend.
- Paid Search and Paid Social are lifecycle quality problems, not just acquisition problems, because both go inactive quickly.
- Premium customers are more valuable at EUR 333.39 average spend, but still require better retention.
- March 2024 and April 2024 are the strongest month-0 retention cohorts and should be used as onboarding benchmarks.

CRM Fields

customer_id | segment | acquisition_channel | retention_band | churn_flag | total_orders | total_spend | avg_order_value | first_order_date | last_order_date | days_since_last_order | cohort_month | months_since_signup | retention_rate

CFO | FINANCE MANAGER | COMMERCIAL OPERATIONS

Finance Drilldown

For revenue movement, discount pressure, vendor concentration, and return-risk exposure.

BEST MONTH

Dec 2024

EUR 3,941.01 net revenue

NEXT BEST MONTH

Feb 2025

EUR 2,825.55 net revenue

TOP VENDOR

AlpenStyle

EUR 10,267.80 GMV

HEALTHIEST TOP VENDOR

IsarTech

Zero return rate within the top vendors

Finance Insights

- Revenue is concentrated in a few months, led by Dec 2024 and Feb 2025.
- AlpenStyle is the top GMV vendor, but scale and safety do not perfectly align.
- IsarTech is the healthiest top vendor because it combines high GMV with zero returns.

- The underperforming vendor list should be reviewed together with assortment, vendor management, and return-risk actions.

Finance Fields
